WHY RAJA AMPAT · MENGAPA RAJA AMPAT

Room to breathe.

Ruang untuk menikmati alam.

At the far western tip of Papua, Raja Ampat is a place where the landscape is the reason to go: turquoise water, limestone islands, quiet lagoons and some of the richest reefs on earth.

Most people know it from one photo, the view from Piaynemo. We've planned five days to see it properly, with time to take in the view. The route takes in Piaynemo, Batanta, Kabui and Kalibiru, and February brings calm seas and clear water.

Di ujung barat Papua, Raja Ampat adalah tempat di mana alam menjadi alasan utama untuk berangkat: air biru toska, pulau karst, laguna yang tenang, dan terumbu karang terkaya di dunia. Lima hari, dengan waktu untuk benar-benar menikmatinya.
