WHY LABUAN BAJO · MENGAPA LABUAN BAJO

Room to breathe.

Ruang untuk menikmati alam.

Komodo is best seen from the water. Three days on a phinisi, moving between islands at the pace of the sea.

You wake up anchored off a different island each morning: Padar's ridges at sunrise, sand that really is pink, and the only place on earth where Komodo dragons live in the wild. The days are for swimming, snorkelling and climbing to the views; the evenings are for the deck.

Close enough to Jakarta and Bali for a long weekend, far enough to feel like somewhere else entirely.

Komodo paling indah dinikmati dari laut. Tiga hari di atas kapal phinisi, berpindah dari pulau ke pulau mengikuti ritme laut: Padar saat matahari terbit, Pantai Pink, dan komodo di habitat aslinya.
